

Bring Your Inspiration to Life.

Undertaking a design project – whether it's remodeling an existing space or starting from the ground up – can be an exciting, but sometimes daunting task. Your new space will need to function well for your needs, accommodate your lifestyle and reflect your personality. Working with a professional designer is key. They will help you properly measure your space, determine the ideal room layout, provide budget advice and help you place your order. This easy-to-use planning guide will help get you started, and with the help of your designer, your dream room will soon be a reality.

| <input type="checkbox"/> \$15,000 – \$20,000 | <input type="checkbox"/> \$40,000 – \$45,000 |
| <input type="checkbox"/> \$20,000 – \$25,000 | <input type="checkbox"/> \$45,000 + |

When it's time to consider what type of style, overall look and feel you'd like the room to reflect, this guide will help you and your designer get organized. Just answer the following questions on how you plan to use your space, provide construction details and measurements as directed, and you'll be ready to get started on the room of your dreams.

Best Description of Your Desired Style

Please select the one that most closely represents your desired style. To learn more about these styles, visit www.kraftmaid.com.

- Contemporary & Dynamic (Sleek, Modern, Sophisticated)
- Luxe Transitional (Distinct, Stylish, Striking)
- Classically Traditional (Authentic, Refined, Time-honored)
- Light & Timeless (Simple, Streamlined, Functional)
- Natural & Warm (Informal, Inviting, Cozy)

Floor Construction

Please check appropriate boxes.

- Tile
- Vinyl
- Carpet
- Wood
- Cement
- Other _____

Will floor be changed during construction? _____

New floor plan required? _____

Use of Space

What activities will happen in this room? _____ How many people will typically use this room? _____

Do you have any special needs for your family to be considered? _____

Kitchen planning (if applicable):

What do you like least about your existing kitchen? _____ What do you like most about your existing kitchen? _____

Do you plan to use the kitchen for dining? With a table? Without a table? Island? _____

What type of cooking do you do? Please give examples. _____

Will you need space for baking? For canning? Other special food prep? _____

How many people in the family cook? _____ Can sink be moved? _____ Can appliances be moved? _____

Do you recycle? Glass Aluminum cans Plastic Newspaper Other _____

Room Details

On which level of the house is this room located? _____ Is there a basement or crawl space below? _____

What room is above the space you are designing? _____ What is the approximate age of the house? _____

Will you maintain existing floor plan? _____ Will you change the location of any existing doors, walls or windows? _____

Does the room include any soffits or bulkheads? Do you plan to keep them? _____

Any construction barriers? Stairs? Elevator? Narrow doors? _____

What is the ceiling height of the room? _____

Description of Existing Wall Construction

Please check appropriate boxes.

- Drywall
- Wallpaper
- Paneling
- Plaster
- Paint
- Brick/Stone

Your Style Preferences

Your designer will want to have a good understanding of the space you want to create. Making a project file will help you share your thoughts and describe your style preferences. Include pictures and print images you like; look to your favorite magazine and online design sites for inspiration. Things to consider including in your file:

Pictures of your existing space

Pictures of rooms you like

Colors you like

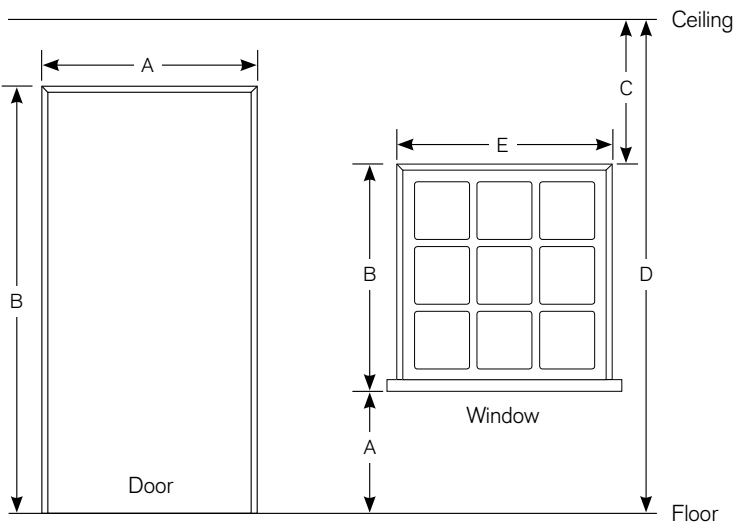

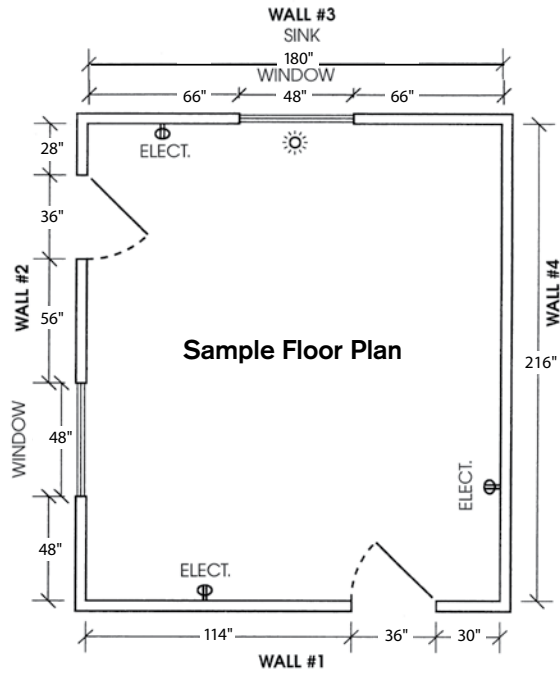

Materials and surfaces you like

Room accents that reflect your style

A rough drawing of your space is useful and will help us with the design process. See below for a sample floor plan. Once you have dimensions and a basic sketch of your space, transfer the information to the grid on the next page of this guide. Here are some helpful hints to get you started.

Tips for Measuring Your Space

- Use a pencil to facilitate easy changes
- Measure in inches only
- Be sure to note all fixtures and utilities (with dimensions)
- Also note all electrical outlets/switches (with dimensions)
- Include location and size of windows and doors
- Note the size and location of existing appliances
- Indicate which way doors swing and into what rooms
- Breaks in walls and obstructions should also be noted
- Denote ceiling height and indicate any transitions, soffits and/or vents

How to Measure Windows and Doors

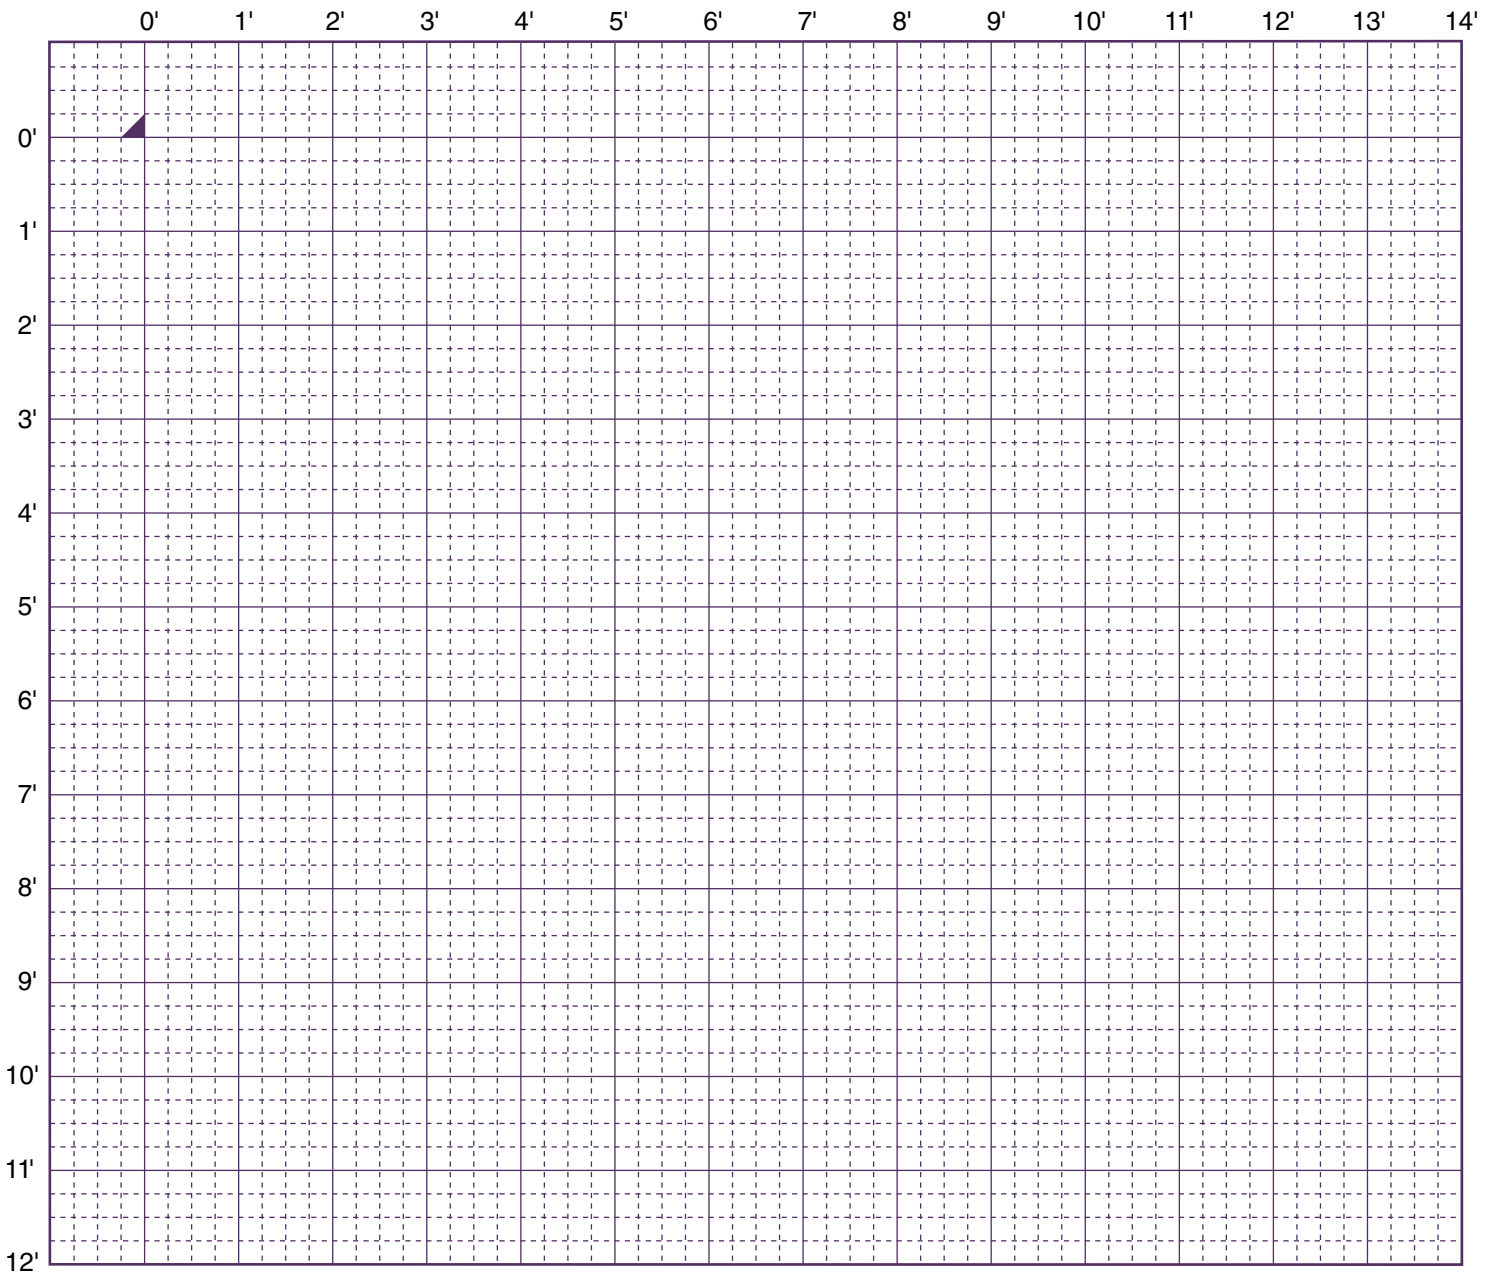

Measure each door and window and record in the grid below. Measurements should be from the outside edges of the window/door – trim to trim. All dimensions should be in inches.

	Measurement A Width of door	Measurement B Height of door
Door 1		
Door 2		
Door 3		
Door 4		

	Measurement A Floor to underside of window sill	Measurement B Underside of window sill to top of window molding	Measurement C Top of window molding to ceiling	Measurement D Floor to ceiling	Measurement E Window width from outside molding to outside molding
Window 1					
Window 2					
Window 3					
Window 4					

Floor Plan Grid

Draw your floor plan here. Remember that a great design hinges on precise measurements. Save time and money on your project by recruiting the professionals to measure your space before cabinetry and other room elements are purchased. Scale: 1/2" equals one foot, or each small square equals three inches.

Notes: _____

Cabinet Style and Finish Selection

To help us complete your project, please provide specifics about your choice of wood type, finish, decorative enhancements, storage solutions and other features. The information below will help you determine options that suit both your home and your lifestyle. Refer to the KraftMaid selection guide for specifics.

Color/Finish

Primary Finish _____

Accent Finish _____

(Placement of accent?) _____

Wood Type Preference

- | | | |
|--------------------------------|---------------------------------|---|
| <input type="checkbox"/> Maple | <input type="checkbox"/> Cherry | <input type="checkbox"/> Hickory |
| <input type="checkbox"/> Oak | <input type="checkbox"/> Birch | <input type="checkbox"/> Thermofoil
Laminate |

Door Style
