

ZÄHBUILT

SEA WHITE

A blurred photograph of a warehouse or factory floor. In the foreground, a yellow power tool, possibly a drill or sander, lies on a wooden surface. In the background, several workers in blue shirts are visible, some standing near workbenches and others near stacks of cardboard boxes. The ceiling is high with exposed pipes and lights. The overall scene is busy and industrial.

Launched on Florida's
innovative Space Coast in
1987

ZahBuilt remains rooted in Melbourne, Florida, USA, which anchors the east side of the Florida High Tech Corridor. We consistently hone our expertise and look for ways to evolve, which is why ZahBuilt continues to be an innovative leader and value-added asset for dealers, contractors, design professionals, and homeowners after more than three decades.

Real Wood Disclaimer

This Accoya wood sample is to help you gain a general understanding of the color and tone of the finish represented.

Age, exposure to light and differences in natural wood characteristics (grain, texture) will affect the outcome of a finished product.

This sample does not guarantee a uniform match to the full-size door and drawer fronts provided for your project.

Overall exposure will determine the life span of the finished surface, under normal covered exterior exposure the finish is warranted for 10 years against substantial color fastness, fading and structural soundness.
